

**REMARKS**

The above amendments and these remarks are submitted in reply to the Office Action dated April 29, 2004.

Summary of the Examiner's Objections/Rejections

The Abstract has been objected to for exceeding 150 words. The declaration is objected to for not including the signature date of one of the inventors. The drawings have been objected to for not being consistent with the specification. Claims 1 and 5-6 have been objected to as containing informalities. Claims 2-3 stand rejected under 35 U.S.C. §112, second paragraph. Claims 4 and 7-8 stand objected to as being dependent upon Claim 1.

Summary of the Applicants Amendments

The Abstract has been amended to comply with the provisions of MPEP 608.01. The specification has been amended to correct minor grammatical and typographical errors present therein, and to make the disclosure correspond to the originally filed drawings. FIG. 2 has been amended to correspond to the disclosure in the originally filed specification. Claims 9-14 have been added. Claims 1 and 5-6 have been amended. Claims 2-3 have been cancelled.

Objection to the Abstract

By this Amendment, the Abstract has been amended to comply with MPEP 608.01(b). Accordingly, reconsideration of the objection to the Abstract is respectfully requested.

Objection to the Declaration

Attached to this Amendment, as Exhibit A, please find a copy of the Declaration for the above-noted application, including the signature date of the co-inventor Richard Bramley. The Applicants submit that the attached Declaration is now in conformance with MPEP 602. Accordingly, acceptance of the Declaration is requested and reconsideration of the objection to the Declaration is respectfully requested.

Objection to the Drawings

Attached to this Amendment (above in the Drawings section), please find a corrected drawing sheet, corresponding to FIG. 2. This drawing has been corrected to coincide with the originally filed specification by amending the identifier of the illustrated method from “10” to “20”. The Applicants submit that no new matter has been added by such amendment. Accordingly, reconsideration of the objection to the drawings is respectfully requested.

Objection to Claims 1 and 4-8

By this Amendment, Claims 1 and 5-6 have been amended to overcome the informalities as pointed out by the Examiner on page 4 of the instant Office Action. Accordingly, reconsideration of the objection of Claims 1 and 5-6 is respectfully requested. As Claims 4 and 7-8 stand objected to as being dependent upon Claim 1, the Applicants respectfully submit that such claims are now allowable given the aforementioned amendment to Claim 1. Accordingly, reconsideration of the rejection of Claims 1 and 4-8 is respectfully requested.

Rejection of Claims 2-3

By this Amendment, Claims 2-3 have been cancelled. Accordingly, the rejection of the aforementioned claims has been rendered moot.

New Claims 9-14

The Applicants have added Claims 9-14 that further define a system that operates according to the novel aspects of the present invention. The Applicants submit that the aforementioned claims are also allowable over the art of record.

**CONCLUSION**

In view of the above amendments and remarks, it is respectfully submitted that Claims 1 and 4-14 are now in proper condition for allowance and such action is earnestly solicited.

The Commissioner is hereby authorized to charge any underpayments or credit any over payments to Deposit Account No. **16-1520** for any payment in connection with this communication, including any fees for extension of time, which may be required. The Examiner is invited to call the undersigned if such action might expedite the prosecution of this application.

Respectfully submitted,  
PHOENIX TECHNOLOGIES LTD.
